

### ***Digital Leadership***

*Improve your ability to lead in a digital world.*

This is my first book on leadership.  
It is made for the Swedish audience.

The book describes the business and market consequences with digitalization and its impact on leadership. The changed environment put new requirement on leadership and I describe why you need to change and how your leadership can be upgraded to succeed in a digital world. We go into details in changed approach, new way of leading and organizing your team and business. I also address the important of change management and the leader's role in making changes sustainable.
